

The combination of you on vocals, backed by two musicians was the perfect arrangement for our marquee setting. The selection of music, volume, interaction with the audience and entertainment provided was perfect for the occasion and very well performed. In addition, the pre-event preparation and advise on technical requirements as well as your expertise in acoustics all contributed to ensuring the event was a great success.

I have no hesitation in recommending Steffi and her band for corporate events and will happily provide a verbal reference if required.

Sincerely,

Sponsorship & Events Manager
